02 **The Secret Retreat**

Maldives

Leading hotel brand Soneva opened its first resort in the Maldives' Haa Dhaalu Atoll in February. Thirty years in the making, **Soneva Secret** has 14 over-water and island villas, including the Maldives' only floating villa. For the ultimate in privacy and seclusion, each villa comes with a "guardian" (aka butler), assistant and private chef, and an in-villa gym and spa treatment room. Bedrooms have retracting roofs for stargazing, and every property has an adjoining children's room. Some of the villas are situated on strips of private beach, while others have slides that run directly into the clear sparkling waters of the Indian Ocean.

03 **The Chir Outpost**

Greece

When it comes to cruising destinations, the Greek islands have long been a favorite – something that is unlikely to change anytime soon. With the country's never-waning popularity, it comes as no surprise that One&Only opens its second new property in early spring. **One&Only Kéa Island** is the hottest new arrival in the Cyclades, and is the perfect base from which to explore the idyllic archipelago. Enjoy the cliffside location with a few nights ashore, or simply drop anchor and tender in to spend an afternoon at the One&Only's Beach Club.
