**FLORENCE**

Hotel Spadai, a new residence in the heart of Florence affiliated to Space Hotels, is the result of the total restoration of an imposing renaissance building. Situated in the historic centre near the city's tourist attractions – only 100 metres from the cathedral and Giotto's magnificent bell tower, and a few minutes from Santa Maria Novella station – it's also an excellent starting point for shopping expeditions. Its rooms and suites are luxurious urban oases where materials inspired by 15th-century techniques and aesthetics blend with sophisticated contemporary furnishings. A welcoming private spa and a breath-taking view of Brunelleschi's dome await guests seeking to enjoy the beauty of this wonderful city to the full. [hotelspadai.it](http://hotelspadai.it)
